RODDA VARSHITHA

+91 9381675973 Hyderabad, India
roddavarshitha@gmail.com LinkedIn GitHub

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in Python, SQL, Power BI, Excel, and data analytics. Skilled in data cleaning, exploratory data analysis, SQL querying, data visualization, feature engineering, and extracting actionable insights from datasets. Experienced in building analytical projects using Python, PostgreSQL, and Power BI. Strong problem-solving and analytical skills with an interest in applying data-driven approaches to real-world business problems. Seeking an entry-level Data Analyst role.

EDUCATION

Mallareddy College of Engineering, Hyderabad 2023 – 2026
B.Tech in Computer Science and Engineering
CGPA: 7.97/10

Vemuganti Manohar Rao Polytechnic, Telangana 2020 – 2023
Diploma in Electronics and Communication Engineering
CGPA: 7.34/10

TECHNICAL SKILLS

Programming: Python, SQL
Data Analytics: Pandas, NumPy
Data Visualization: Power BI, MS Excel, Matplotlib
Databases: PostgreSQL, MySQL
Tools: Git, GitHub, Jupyter Notebook, MS PowerPoint, MS Word
Soft Skills: Communication, Teamwork, Problem Solving, Adaptability

PROJECTS

Customer Shopping Behavior Analysis GitHub May 2026 – Jun 2026

- Analyzed 3,900 e-commerce records using Python, Pandas, NumPy, and PostgreSQL.
- Performed data cleaning, preprocessing, feature engineering, and SQL-based analysis.
- Built a Power BI dashboard to visualize customer segments, spending patterns, and revenue trends.

Modeling & Predicting Cyber Hacking Breaches GitHub Jan 2025 – May 2025

- Analyzed 12 years of cybersecurity breach datasets to identify attack trends and patterns.
- Applied ARMA-GARCH and stochastic process models to predict attack frequency and breach size.
- Visualized breach trends and provided insights into evolving cybersecurity threats.

CryptoProctor – Blockchain Based Secured Online Proctoring System GitHub Dec 2025 – May 2026

- Built a secure online proctoring system using Ethereum blockchain and IPFS.
- Developed Solidity smart contracts for role-based access and exam integrity.
- Integrated Python and Web3.py for tamper-proof blockchain record management.

INTERNSHIPS

Python Intern – Infosys Springboard GitHub Dec 2025 – Feb 2026

- Designed and deployed an AI-powered Resume Analysis & Job Recommendation System leveraging LinkedIn data.
- Applied NLP techniques for resume parsing, skill extraction, and automated role recommendations.
- Built an interactive Streamlit web application for career guidance and resume evaluation.

Python Development Intern – Cognifyz Technologies Apr 2025 – May 2025

- Automated data processing workflows using Python scripts, improving efficiency and accuracy.
- Debugged and optimized project functionalities to enhance system performance.
- Collaborated with cross-functional teams to gain hands-on experience in real-world project development.

CERTIFICATIONS & ACHIEVEMENTS

- Data Analytics Job Simulation – Deloitte (Forage), Apr 2026
- Power BI Workshop – Office Master
- Career Edge – Young Professional Program – TCS iON
- Electronic Devices Role in Industries – IRA OM Technologies Pvt. Ltd.
